

## National Day Polish Society of Radiation Oncology

**3<sup>rd</sup> ESTRO FORUM – 24 April 2015, Barcelona, Spain**

*Session will be conducted in Polish.*

08:30-08:45	Opening: <b>Biology of high radiation doses</b> Speaker: Krzysztof Składowski
Session I (Physics): <b>Stereotactic Radiation Treatment Planning</b> Chairs: Krzysztof Ślosarek and Marzena Janiszewska	
08:45-09:00	<b>Review of delivery systems and techniques of SRT in Poland</b> Speaker: Krzysztof Ślosarek
09:00-09:15	<b>Linac SBRT planning of lung tumours</b> Speaker: Marzena Janiszewska
09:15-09:30	<b>Specific aspects of Tomotherapy and CyberKnife planning</b> Speaker: Tomasz Piotrowski
09:30-09:45	<b>GammaKnife SRT planning</b> Speaker: Aneta Iwanicka
09:45-09:55	<b>Best physics original paper:</b> Ga-68 DOTATATE PET/CT imaging for robotic radiotherapy in patients with meningiomas Presenter: Małgorzata Fudzińska
09:55-10:10	Coffee Break
Session II (Clinical): <b>Clinical Advances of SBRT</b> Chairs: Rafał Dziadziuszko and Bogusław Maciejewski	
10:10-10:25	<b>Oligometastatic tumours</b> Speaker: Krzysztof Konopa
10:25-10:40	<b>Oligo- and hypofractionated SRT of lung cancer</b> Speaker: Rafał Dziadziuszko
10:40-10:55	<b>SBRT of liver neoplasms</b> Speaker: Rafał Suwiński
10:55-11:10	<b>CyberKnife for prostate cancer patients – preliminary results of 200 patients irradiation</b> Speaker: Leszek Miszczyk
11:10-11:20	<b>Best clinical original paper:</b> Can SRT preserve TCP of HNC patient when standard therapy is not compliant? Presenter: Łukasz Michalecki
11:20-12:20	Panel discussion: <b>Will SRT be a standard method of malignant tumours?</b> Speakers and chairs

12:20-12:25

Symposium Conclusions

Krzysztof Skłodowski

### **About the Polish Society of Radiation Oncology**

Polish Society of Radiation Oncology (PSRO) was born in 1997 from the former Radiation Oncology Division of Polish Society of Oncology (PSO).

PSRO collects approximately 400 full members and 100 young (under training) members - physicians, physicists and biologists involved in radiation oncology.

Current PSRO President Professor Krzysztof Skłodowski (Gliwice) has taken his cadence since 2012. Past Presidents were: Professor Bogusław Maciejewski (Gliwice) 2002-2012 and Professor Jan Skolyszewski (Founding President, Krakow) 1997-2002. PSRO takes a part in the ESTRO National Societies Council activity, as well as Educational Programmes.

From 18 years our mission is:

1. to enhance the practice of radiation oncology by promoting excellence in patient care,
2. to provide opportunities for educational and professional development,
3. to promote research and disseminating research results,
4. to represent radiation oncology in a health care environment and government authorities.

### **Scientific Committee:**

Prof. Dr. Krzysztof Skłodowski - Chair

Prof. Dr. Bogusław Maciejewski

Dr. Rafał Dziaduszko

Prof. Dr. Krzysztof Ślosarek
